Full year results announcement, 26 March 2025

KEY EXTRACT ON GMV JOINT VENTURE REMEDIATION:

"The provision previously included an amount of £20.9m relating to the Group's share of the expected costs to remediate 10 buildings that were developed by Greenwich Millennium Village Ltd, one of the Group's joint ventures. During 2024, the joint venture accepted responsibility for completing the works and recorded a provision for the full amount. Accordingly, the Group provision was released."

WIDER BUILDING SAFETY CONTEXT:

- Total building safety provision at 31 December 2024: £324.4m (up from £289.0m at end of 2023)
- Provision increased by £117.1m in FY24
- 41 additional buildings requiring remediation identified during 2024
- Work completed on 28 buildings during 2024
- 10 buildings' responsibility transferred to a joint venture (the GMV JV)
- At 31 December 2024: engaged in remediating 240 buildings (excluding those in JV)
- Vistry signed Developer Remediation Contract in March 2023
- Net annual cash costs of Building Safety expected to be c.£65m in FY25

SIGNIFICANCE FOR GMV:

This is the key public document confirming that:

1. The GMVL joint venture (Taylor Wimpey / Countryside Properties / Vistry) accepted full responsibility during 2024 for remedial works on 10 buildings it originally developed
2. A provision was recorded by the JV for the full expected cost (implied: the full amount, not just Vistry's share)
3. The 10 buildings referenced are at Greenwich Millennium Village

4. This resolved the remediation liability commercially/contractually rather than through court judgments

VISTRY GROUP:

- GMVL is a joint venture – Countryside Properties (part of Vistry Group) and Taylor Wimpey
- Vistry Group brings together Bovis Homes, Linden Homes, and Vistry Partnerships (formerly Galliford Try Partnerships)
- Vistry signed Developer Remediation Contract in March 2023 committing to remediate buildings

Building safety provision movement 2024:

Opening: £289.0m

Increases: +£117.1m (new buildings and scope)

Utilised: -£68.8m

Discount unwind: +£8.0m

JV transfer: -£20.9m released

Closing: £324.4m
