

GMV Parking Policy

Residents' Parking

- Residents with parking spaces are permitted to park in their allocated bays only. Vehicles must display a parking permit issued by GMV Management.
- There is no visitor parking at GMV. Vehicles that need access to GMV's private roads for the purpose of loading and unloading will be allowed a maximum 20 minutes. If access for a longer period is required – eg: for a house removal – the resident and the vehicle holder must first visit the Concierge to obtain a temporary parking permit that must be returned when the vehicle leaves.
- There is a weight restriction limit of 4 tons for vehicles entering the GMV estate.
- Leaseholders may only sublet car park spaces to other residents of Greenwich Millennium Village. Under the terms of the lease subletting to non-GMV residents is strictly forbidden.

Vehicle Security

- Vehicles left anywhere on the GMV estate are at the risk of the owner. GMV Management Ltd is not responsible for any loss, theft or damage concerning any vehicle left on the GMV premises.
- If a residents' vehicle is broken into in the car park they should report the matter to the police and obtain a crime reference number. Please also inform the Concierge as soon as possible, giving all relevant details, such as the times between last seeing the car and noticing the damage etc so we can check CCTV and make every effort to assist the police.

If you require any assistance please contact the Concierge on 020 8293 3394 or concierge@gmvservices.co.uk
