

22nd December 2023

To whom it may concern,

Re: Greenwich Millennium Village – Phases 1 & 2

We are writing to you regarding the remedial work required to bring the high rise buildings at the Greenwich Millennium Village development to a mortgageable (B1) EWS1 standard, in line with PAS9980 guidance.

In line with the fire safety Pledge for Developers with the Department for Levelling Up, Housing and Communities' (DLUHC), I can confirm that Greenwich Millennium Village Limited (GMVL) will be carrying out the required remediation work.

We have been in regular contact with the management company, Greenwich Millennium Village Management Ltd (GMVML), over the last few months and we are pleased to confirm that PAS9980 assessments of all buildings listed below are now complete:

- Metcalfe Court
- Holly Court
- Newton Lodge
- New Becquerel Court
- Da Vinci Lodge
- Becquerel Court
- Faraday Lodge
- Maurer Court
- Farnsworth Court
- Alamaro Lodge

Following receipt of Issue 01 of the PAS9980 reports and details of the recommendations / remedial actions, we are in the process of appointing all relevant design disciplines including lead architects to undertake the detailed design work for all buildings.

In accordance with the PAS9980 reports it is recommended that prior to remediation works being completed, temporary common fire alarms will need to be installed within the following buildings:

- Metcalfe Court
- Holly Court
- Newton Lodge
- New Becquerel Court
- Da Vinci Lodge

We have worked with the fire engineers on the design for the alarms and tendered for a suitable contractor. Installation of the alarms will start this week and we will be in further contact with the residents of these five buildings to organise the details of the installation. Please be assured that the cost of the alarms will be met by GMVL.

Greenwich Millennium Village is a joint venture between Countryside and Taylor Wimpey in association with the Mayor of London.

We will write to you again, early in the new year to provide a further update and to outline timescales for the remedial works. In the meantime we would like to assure you of our commitment to doing all we can to ensure they can begin at the earliest opportunity, and to confirm that the cost of the overall remediation work to bring the buildings to a mortgageable (B1) EWS1 standard, will not be passed to residents.

I hope this provides a helpful update but if you have any further queries please do not hesitate to contact us on Buildingsafety@vistrygroup.co.uk and cladding@taylorwimpey.com.

Kind regards,

Taylor Wimpey & Vistry Group on behalf of GMVL
