TITLE: Greenwich Millennium Village Public Exhibition 2017

DATE: 7-9 February 2017

AUTHOR: Greenwich Millennium Village Ltd (GMVL) – joint venture between Taylor Wimpey Central London and

Countryside Properties, in association with the Mayor of London.

FULL TEXT:

SITE HISTORY:

Phases 1 and 2 of Greenwich Millennium Village were built between 2002–2009, delivering:

- 1,095 homes
- 1,357 sqm of commercial and retail floorspace
- 5.8 acre Ecology Park
- 5.4 acre Southern Park

THE 2012 MASTERPLAN:

The masterplan for Phases 3, 4 and 5 was granted outline planning permission in 2012, providing:

- 1,746 new homes
- Up to 4,462 sqm of commercial (B1) floorspace
- Up to 1,190 sqm of retail floorspace (flexible A class uses A1–A4)
- A New Energy Centre
- New public squares and children's play areas
- New Ecology Swale
- Nursery, Community Centre, and Yacht Club Car Park

Work began on site in March 2013. To date (Feb 2017) delivered:

- 428 new homes, including 128 affordable homes (30% – 10% above the agreed requirement)

2017 YEAR AHEAD:

- Occupation of Plots 103 and 107 (Residential Buildings)
- Construction of Plots 101 and 102 (Residential Buildings) – 106 new homes, began January 2017
- Mix of six-storey apartment buildings, three-storey family townhouses and two-storey courtyard houses
- 44 of 106 homes designed for families
- Expected ready: late 2018/early 2019
- Reserved Matters application for Plot 504 (Energy Centre)
- Reserved Matters application for Plot 201 (Landmark Residential Building – 20 storeys)

- Reserved Matters application for Plots 204 and 205 (Residential Buildings, ~100 new homes)
- Initial design development for the Ecology Swale (working with the Land Trust)
- Consultation on new Community Centre

PLOT 201 — LANDMARK RESIDENTIAL BUILDING:

- 20-storey landmark residential building
- 90 high quality new homes (mix of 1 and 2 bedrooms)
- New shared surface public route to the Ecology Park
- 100 sqm commercial unit at ground floor
- Communal roof terrace for residents at 18th floor
- Biodiversity roofs at 16th, 13th and 11th floors
- Materials: robust brickwork, coloured glass and contemporary zinc
- Footprint takes up only 64% of the parameter approved in outline planning permission
- Design inspired by varied barrel-vaulted roofline of original Erskine design (Phases 1 & 2)

ENERGY CENTRE — PLOT 504:

- New "heart" for Greenwich Millennium Village
- Combined Heat and Power (CHP) technology with thermal stores and high efficiency boilers and pumps
- Will deliver heating and hot water requirements for GMV via underground district heating pipe network
- Will also provide clean electricity to GMV
- Up to 16m high, built of brick with coloured stainless steel flue (rising to 26m)
- Illuminated Greenwich Millennium Village signage
- Hoped to bring into operation in 2018 (subject to planning)
- Features: 24hr/365-day operation; graphic lighting display showing energy generated

NOTE ON PHASES 1 AND 2 DATING:

This document explicitly states: "Phases 1 and 2 of Greenwich Millennium Village were built between 2002-2009"

This is the key source cited in the Farnsworth Court due-diligence report for the build dating.
