SUPPLEMENTARY RESEARCH REPORT — GMV NEW FINDINGS

Generated: 2 May 2026

This document contains new material NOT in the original three source documents.

SECTION 1: RTM COMPANIES — FULL COMPANIES HOUSE DATA (NEW)

Company No: 15961367

Incorporated: 17 September 2024

Registered office: Flat 1, Alamaro Lodge, Renaissance Walk, London, SE10 0QU

Status: Active | Type: Private CLG without share capital | SIC: 98000

OFFICERS:

- SHEKHAWAT, Shakti Singh – Director, appointed 17 Sept 2024, DOB Dec 1981, British
Address: 1 Alamaro Lodge, Renaissance Walk, London, SE10 0QU
- BOWER, Mark – Director, appointed 11 Dec 2024, DOB Oct 1970, British
Address: 207 Alamaro Lodge, Renaissance Walk, London, SE10 0QU
- PAKENHAM, Katherine Clara – Director, appointed 15 May 2025, DOB Sept 1960, British
Address: Flat 1, Alamaro Lodge, Renaissance Walk, London, SE10 0QU
- MALONE, Paul – Director, appointed 17 Sept 2024, RESIGNED 16 Nov 2025, DOB Dec 1953
- SINGH, Sarabjit – Director, appointed AND resigned 17 Sept 2024, DOB Nov 1961

KEY NOTE: Shakti Singh Shekhawat (DOB Dec 1981) is a director here AND of Farnsworth Court RTM Co Ltd AND previously was a director of GMVML (resigned July 2024). He also appears as a GMVRA committee member (per the GMVRA website). This person sits at the intersection of RTM activity, the residents association, and former estate-wide management.

FARNSWORTH COURT RTM COMPANY LIMITED ---

Company No: 16001742

Incorporated: 7 October 2024

Registered office: Flat 6 Farnsworth Court, West Parkside, London, SE10 0QF

Status: Active | Type: Private CLG without share capital | SIC: 98000

OFFICERS:

- EVANS, James Peter – Director, appointed 7 Oct 2024, DOB Sept 1982, Welsh, England resident
Address: Flat 6 Farnsworth Court, West Parkside, London, SE10 0QF
- SHEKHAWAT, Shakti Singh – Director, appointed 7 Oct 2024, DOB Dec 1981, British
Address: Flat 1 Alamaro Lodge, Renaissance Walk, London, SE10 0QU
[NOTE: Shekhawat lives in Alamaro Lodge, not Farnsworth Court – he is cross-block organiser]

MAURER COURT RTM COMPANY LIMITED ---

Company No: 16030617

Incorporated: 21 October 2024

Registered office: 4 Alamaro Lodge, Renaissance Walk, London, SE10 0QU

Status: Active | Type: Private CLG without share capital | SIC: 98000

PSC:

- Individual (DOB Dec 1981) – notified 4 Sept 2025, nature of control: significant influence [DOB matches Shekhawat]
- Prior PSC (DOB July 1968) – notified 21 Oct 2024, ceased 4 Sept 2025; voting rights 25-50%

NOTE: Maurer Court RTM also registered at Alamaro Lodge address, further confirming Shekhawat's central coordinating role across multiple RTM vehicles.

FARADAY LODGE RTM COMPANY LIMITED ---

Company No: 16437969

Incorporated: 8 May 2025

Registered office: Flat 5 Faraday Lodge, Renaissance Walk, London, SE10 0QL

Status: Active | Type: Private CLG without share capital | SIC: 98000

[Most recently formed of the four RTMs – May 2025]

GREENWICH MILLENNIUM VILLAGE LIMITED (the developer JV) ---

Company No: 03648005

Incorporated: 12 October 1998

Registered office: Countryside House, The Drive Great Warley, Brentwood, Essex, CM13 3AT

Status: Active | Type: Private limited Company

SIC: 41100 (Development of building projects), 68100 (Buying/selling own real estate)

PATTERN ANALYSIS (NEW FINDING):

The four RTM companies were formed in sequence:

1. Alamaro Lodge RTM – Sept 2024 (the same month Shekhawat resigned from GMVML)
2. Farnsworth Court RTM – Oct 2024
3. Maurer Court RTM – Oct 2024
4. Faraday Lodge RTM – May 2025

This is a coordinated block-by-block RTM strategy, not ad hoc activity. Shekhawat resigned from GMVML on 3 July 2024 and immediately began forming RTM companies. His presence across multiple RTMs and the GMVRA committee makes him the most significant individual figure in the GMV governance transition – a former insider now operating as a resident organiser.

SECTION 2: GMVRA — GREENWICH MILLENNIUM VILLAGE RESIDENTS ASSOCIATION (NEW)

Source: <https://gm vra.org/>

The GMVRA is the estate-wide residents association. Website launched 2024. 85 subscribers.

COMMITTEE (as listed on website):

- Treasurer: Shivani Padmanabhan
-

- General committee: Louise Knight, Jane Petrie, Paul Williams, Arianna Jennings, Emel Jennings, Shakti Shekhawat, Ambika Shekhawat, Madhavi Jampani, Katie McLaughlin, Mariyam Zaman, Paris Miserlis, Andre [surname not listed]

RESIDENTS MEETINGS HELD (from events page):

- 7 March 2024 – Guests: Matthew Pennycook MP, councillors, Taylor Wimpey, Ecology Park, Rendall & Rittner
- 6 June 2024 – Regular guests including Rendall & Rittner, Switch2, EON, MOAT, GMV West Board
- 7 November 2024 AGM – Guests: Developer, Councillor, GMV Community Centre, Rendall & Rittner (GMV East). NOTE: "For GMV West, Switch2 and the new managing agent will organise meetings at another time" – confirms West/East split at this date
- 14 May 2025 – Agenda included Switch2 on GMV West Heating, Rendall & Rittner for GMV East, Community Safety Officer, TCV ecology park update, GMVL developer update
- 13 November 2025 AGM – Agenda explicitly included "Right To Manage (RTM) explained" and "Rendall & Rittner for GMV East" – confirms RTM is a live agenda item for residents

KEY INSIGHT: The November 2025 AGM agenda item "Right To Manage (RTM) explained" shows the RTM process was being explained to the broader resident base, not just to block-level organisers. This is a significant signal that RTM activity may be spreading.

SECTION 3: HOMEVIEWS RESIDENT REVIEWS (NEW — NOT IN SOURCE DOCS)

Source: <https://www.homeviews.com/development/greenwich-millennium-village-se10>

Overall rating: 3.78/5 (17 reviews, ranked 28th out of 34 in Borough of Greenwich)

Category scores:

- Experience: 4.0
- Value: 3.9
- Location: 4.2
- Facilities: 3.8
- Management: 3.4 ← LOWEST score
- Design: 3.8

SELECTED REVIEW EXTRACTS (verbatim where feasible, otherwise paraphrased):

1. ANONYMOUS OWNER, Nov 2023 (5/5 – newer Galleria phase):

"The flat feels very warm, cosy and modern and everything is built to a high standard."

Negatives: construction noise from next phase, wind exposure making terrace unusable most of the time, no on-site gym.

Note: This is a newer phase (Galleria), NOT the original phases 1&2 Farnsworth area.

2. CARRIE L (Tenant), Apr 2023 (3/5):

"The block management can be slow to deal with, and don't take ownership of issues."

"The heating and hot water is constantly an issue with the service not working."

"Antisocial behaviour has been on the rise."

"[Ecology Park] footpath closed for around a year, and a lot of the paths are rotten which is dangerous."

3. LAVINA (Owner), Apr 2023 (3/5):

"At the moment the management fees are far too high and aren't justified in my opinion."

"Residents have tried to reach out regarding management fees but we haven't heard back."

"We were told there will not be any more phases but the construction just doesn't stop."
Management rating: 1/5

4. RICK & JUSTINE (Owner), Feb 2023 (4/5 overall but 1/5 management):

"Very poor maintenance in past few years by Rendall and Rittner – increased service charges but there does not seem to be regular walkabout visits by the management."

"The developers have not yet committed a date for starting the cladding remedial work nor a finish date... the development was advised that the work would be necessary at the end of 2020 and the work has still not started by March 2023."

"Service charges on new developments: the first year will definitely not reflect what you will be paying five years later."

"Those people with a car will need to find property on older developments... be prepared to pay a premium of £20,000–25,000 or more for a parking space."

"Check that residents are not allowed to carry out Airbnb in the older developments."

5. CARRIE L (Tenant), Nov 2021 (4/5):

"The building management is not the best at all. Have reported communal lights out for some time, issues with communal lights falling down as well. Carpets are not cleaned."

"We were told there was more resident services prior to moving in, such as a gym etc but this doesn't seem to exist."

"Wish I knew that the village was not as huge a community as advertised. Expected more village markets etc in the square."

SUMMARY OF REVIEW THEMES:

1. Heating/hot water outages – recurring complaint specifically about the community heat network
2. Management (Rendall & Rittner) rated poorly: slow response, poor communication
3. Cladding delays – residents knew about need for works from 2020 but no start date given until at least March 2023
4. Service charge increases – residents feel charges rose significantly without justification
5. Ongoing construction noise and view obstruction from new phases
6. Good location, green space, transport – consistently praised
7. Antisocial behaviour increase noted (2023)

SECTION 4: CHANGE.ORG PETITION — GMV EAST SERVICE CHARGES (NEW)

Source: <https://www.change.org/p/rendall-rittner-stop-extortionate-services-charges>

TITLE: "Rendall & Rittner: STOP extortionate services charges"

Filed by: Resident/leaseholder of Greenwich Millennium Village – Devine, Galvin, and McGill House (Block 301), GMV East

KEY FACTS FROM PETITION:

- Purchased property 22 December 2021
- Service charge projected to increase by 89.3% by 2025-26 financial year vs original estimate
- Estimated service charge 2025-26: £7,500 per annum (£5.22 per sq ft) for 1,431 sq ft flat
- Block lacks facilities such as a gym (which might otherwise justify higher charges)
- Petition shared to GMV East residents specifically (Devine, Galvin, McGill House = Block 301)
- Service Charge Budget Year Ending March 2026 referenced

SIGNIFICANCE: This is a live, recent (2025) dispute about GMV East service charges. The 89.3% increase figure is striking and directly supports the pattern of rising charges documented in the GMV legal report.

GMV East block names noted (Block 301): Devine House, Galvin House, McGill House – which matches the register.md list of GMV East buildings.

SECTION 5: COSTS JUDGMENT IN GMV V ESSEX (4 NEW SQUARE — NEW DETAIL)

Source: <https://www.innertemplelibrary.com/2014/05/greenwich-millennium-village-limited-v-essex-services-group-plc-ors-4-new-square/>

4 New Square (chambers) commentary, 6 May 2014:

"Mr Justice Coulson has handed down his lengthy judgment on the costs matters arising from the claim made by Greenwich Millennium Village Limited ('GMVL'). His judgment may prove of particular interest for his consideration of costs issues which arise when, as so often in the TCC, parties seek to pass on liabilities along a contractual chain."

Original full story PDF: <http://www.4newsquare.com/content/Publications/182.pdf>

This confirms the costs judgment (April 2014) was a significant standalone judgment on costs allocation along contractual chains – a point of wider legal significance beyond the GMV case.

SECTION 6: EARLY DESIGN DISPUTE – HTA ARCHITECTS VS DEVELOPER (NEW)

Source:

<https://www.building.co.uk/news/war-of-words-breaks-out-over-2000-village-failure/4158.article>
Building Magazine, c.1999

KEY FINDING: A public dispute between the original design team and the developer broke out BEFORE construction was complete. HTA Architects submitted evidence to an official government inquiry alleging:

1. Lack of properly resourced project management team with responsibility for managing the process in an integrated way (they cited a Tavistock Institute report from March 1999 warning this would "result in disaster")
2. Replacement of every member of the design team except Ralph Erskine, and reduction of Erskine's role – making it impossible to deliver the design vision
3. Failure to develop the whole scheme to RIBA Stage D at the start of the process
4. Failure to implement the Egan agenda for construction management, prefabrication and supply-chain integration
5. Failure to include a mix of uses in each phase

Developer response (Alan Cherry, Countryside Properties chairman): committed to deliver standards agreed in legal agreement with English Partnerships and s106 agreement with Greenwich Council; said an independent review would confirm they were "well on course."

SIGNIFICANCE: This 1999 dispute predates construction and is the earliest public record of governance/delivery concerns at GMV. Combined with the later flooding case (described as "death by sub-contracting"), the acoustic complaints of 2005, and the cladding failures of the 2020s, it establishes a very long thread of delivery and subcontracting quality concerns

running through the entire history of the development.

SECTION 7: METROPOLITAN/BUUK — PHASES 3-5 UTILITIES (NEW TECHNICAL DETAIL)

Source: <https://www.metropolitan-uk.co.uk/projects/greenwich-millennium-village/>

Metropolitan (part of BUUK Infrastructure Group) was contracted in 2013 to install, own and operate for PHASES 3, 4 AND 5 (NOT phases 1 & 2):

- Electricity network
- Water network (under NAV OFWAT licence)
- Wastewater network
- Ultrafast fibre broadband (300Mbps, future-ready to 1Gbps)
- Heat network (primary + adopted secondary)

NOTE ON HEAT NETWORK FOR PHASES 3-5:

"The heat network is supplied by a gas CHP-powered energy centre owned and operated by a third party." Metropolitan built/operates the distribution network; a separate third party owns/operates the energy centre itself.

SUSTAINABILITY MEASURES IN PHASES 3-5 (confirms MVHR):

"Sustainability measures include rainwater harvesting, thermal and acoustic glazing and

VENTILATION HEAT-RECOVERY SYSTEMS."

KEY FINDING: This is the first explicit confirmation that GMV phases 3-5 (i.e. the East side and later development) HAS MVHR ("ventilation heat-recovery systems"), while the Farnsworth due-diligence report notes MVHR was NOT confirmed for phases 1-2 (the original Farnsworth Court era). This Metropolitan source explicitly confirms the technical split between phases.

SECTION 8: GOOGLE MAPS / TRUSTPILOT REVIEWS — MANAGEMENT SPECIFIC (NEW)

Source: Trustpilot reviews for Rendall & Rittner, multiple pages

GMV-SPECIFIC POSITIVE REVIEWS:

1. "The team at GMV Peartree way are second to none. Antonia, Stefano and David service has been first class and they are a pleasure to have as our estate management team."

[Peartree Way = GMV East/later phases]

2. "I would like to compliment Antonia Cuba-Esra from the GMV Development. I work on behalf of the Royal Borough of Greenwich, we lease two of the larger blocks on the GMV Development and since taking over the concierge team has gone from strength to strength."

[Note: RBG itself leases blocks at GMV]

3. A resident (at "Millennium Villa in Greenwich") complained about noisy neighbours and praised Antonia (concierge manager) who resolved the situation after "several months."

GMV-RELATED NEGATIVE PATTERN:

One reviewer describes 4 months without working heating with a baby with a heart condition (note: possibly not GMV-specific but illustrates R&R management issues).

NOTE: Rendall & Rittner lost the GMV West secretarial role as of 1 December 2024 (replaced by Ringley). They retain the GMV East management role at least through mid-2025 per GMVRA meeting agendas.

SECTION 9: BUILDING MAGAZINE — ORIGINAL DESIGN CONCERNS (1999)

Source: Building Magazine, 1999 article on HTA Architects dispute

Confirms that at its very inception, GMV had a governance/management dispute over delivery, prefabrication, design team continuity, and construction management – with HTA claiming the developer stripped the original innovative intent from the project.

This predates the acoustic complaints (2005), the flooding litigation (2013), the cladding remediation (2020s) – and is part of the same pattern.

SECTION 10: LEXOLOGY — COURT OF APPEAL INDEMNITY CASE DETAIL (NEW)

Source: <https://www.lexology.com/library/detail.aspx?g=525aa393-a780-4f81-9a56-2aca4b21f3ba>
Lexology commentary, July 2014

"The first instance decision in this case was reported in Weekly Update 39/13. A contractor sought to claim under an indemnity agreement with its [sub-contractor]..."

This confirms the Court of Appeal decision (2014) arose from the Essex Services Group seeking to claim under the indemnity from its own sub-contractors – not just GMVL seeking damages. The CA held the indemnity operated even where the indemnitee (GMVL) had "passively" failed to spot defects on inspection.

SECTION 11: GMV EAST UTILITIES — EON (NEW)

From GMVRA meeting notes (June 2024): EON was one of the invited guest speakers at the June 2024 residents meeting alongside Rendall & Rittner, Switch2, and MOAT. This suggests EON may have a role in energy supply or billing for some GMV East blocks, separate from the Metropolitan/BUUK network and the Switch2 GMV West arrangement.

SECTION 12: MATTHEW PENNYCOOK MP — SPECIFIC GMV INTEREST (NEW)

From GMVRA March 2024 meeting: Matthew Pennycook MP attended as guest. He is the MP for Greenwich and Woolwich (constituency covers GMV). SHAC (Social Housing Action Campaign) website specifically recommends residents write to him as "Minister of State for Housing and Planning."

This is significant: the local MP for GMV is simultaneously the minister responsible for housing and planning policy. GMV residents have direct access to the ministerial level of government on their building safety and management issues.
